

Progress Report

Oliver Jack Myers

Shiny App

- Data / Tables added to pgAdmin via SQL and data hosted to a railway server.
- Shiny app shell initiated with limited functionality.
- Next steps are to drill down into **competitive events** and evaluate criteria scores from the database.
- A nice to have would be a more formal interactive dashboard

Average Scores & Variance by Competitive Event

Show entries

Search:

competitive_event_name	average_score	score_variance
First Responder	88.37	65.67
Parliamentary Procedure	88.34	89.18
Fiber Analysis	86.55	109.27
Cell Extraction	81.41	134.56
